NER/ER Electric Chain Hoists
Enhanced Features

**UL® Listed***
Certified and listed to UL 1340 “Standard for Hoists.”

**Easy Access Suspension**
External pins allow for quick change from hook to lug for trolley mount configurations on most models.

**Perpendicular Orientation**
PT push trolley mount and MR motorized trolley mount hoists are configured as perpendicular to the beam on single fall models. Parallel mount is available as an option.

**High Strength, Corrosion and Wear Resistant Load Chain**
Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

**Green Initiative**
Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

**Notched Hook and Latch System**
Provides positive closing and improves resistance against lateral forces standard on most models.

**Unique Load Sheave**
Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

**Extended Chain Life**
Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

*Most models shipped with UL listing. Contact Customer Service for listed models.*
**Limit Switches**
Low-profile upper and lower limit switches are standard.

**Contactors**
Mechanically interlocked, heavy-duty contactors on single speed models.

**Friction Clutch and Load Brake**
Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

**High Air Flow**
Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

**Standard Count Hour Meter**
Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

**Dual Speed VFD**
Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

**“The Guardian” Smart Brake Technology**
A current driven electromagnetic brake does not release unless the motor is energized. **10 year hoist brake warranty.**

**Pendant Controls**
Ergonomic design for operator comfort. Red button emergency stop is standard on all 4-button and on 2-button dual speed pendants.
NER/ER Electric Chain Hoists

"The Guardian": Smart Brake Technology
Revolutionary DC current motor brake with electrical failsafe design. 10 year warranty.

Totally Enclosed Fan Cooled (TEFC) Motor
Engineered motor fin, fan blade and fan cover design cools the motor and brake.

Extreme Duty Motor
Increased performance through 60 minute duty rating, H4 classification, Class B insulation, cooling fins and standard thermal motor protection. Offers higher horsepower than most competitors.

Durable Push Button Pendant
Easy to use, one-handed operation. Rated IP65. Standard control voltage is 110V. Strain relief wire is molded to pendant cord for added support and dependability. E-stop is standard on all 4-button pendants and on 2-button dual speed pendants.

Load Sheave
5 or 6 deep-groove pockets fully support the load chain during operation. Reduces vibration and chain wear. Provides true vertical lift.

Forged Carbon Steel Hooks
Under excessive loads will open gradually and not fracture. Ball bearings produce smooth rotation. Bottom hook will swivel 360 degrees. Heavy-duty hook latches are standard.

Upper/Lower Limit Switches
Low profile upper and lower limit switches provide excellent headroom.

Unique Chain Guide
Provides quiet and smooth guiding of chain. Easily replaced without hoist disassembly. Heavy cast iron construction for improved wear versus stamped steel design offered by many manufacturers.

Suspension
Hoist is easily changed from hook to lug mount configurations with external suspension pins on most models.
**HARRINGTON NER/ER THREE PHASE ELECTRIC CHAIN HOISTS**

**Heat Treated Helical and Spur Gears**
Precision machined for long life. Oil bath lubrication results in a quiet, smooth, cool operation.

**Mechanical Load Brake**
Mechanical (secondary) Weston-style load brake standard on ER models.

**Long Life Friction Clutch**
Protects hoist from damage and prevents overwinding. ER model couples Weston-style load brake with friction clutch.

**Compact Aluminum Body**
Die-cast body is lightweight and offers low headroom – one of the best in the industry. Paint is electrostatically applied.

**Completely Sealed Body**
Suitable for both indoor and outdoor applications, including harsh environments. (Consult Owner’s Manual for details.) Gaskets throughout the hoist provide for an IP55 rating.

**Contactors**
Mechanically interlocked heavy-duty contactors (single speed).

**Variable Frequency Drive**
Dual speed controls via “under-the-cover” variable frequency drive standard. Optional 2-step and 3-step infinitely variable control.

**Count Hour Meter**
This maintenance feature tracks motor starts, running time and usage history by instant digital display. Meter operates independently of the hoist. Integral to VFD on dual speed models.

**Easy Maintenance Control Panel**
Simple layout of controls and a single swing-down panel. Captured control cover provides standard wiring diagram and allows fast on-site access.

**Operating Conditions**
Recommended for -4°F to +104°F and humidity of 85% or less.

**Plug-in Connections**
Saves valuable time on set up and maintenance. “Quick disconnect” replaces typical competitive hard-wired designs.

**Corrosion Resistant Load Chain**
Nickel-plated, Grade 80, DIN chain for superb durability and strength.

**Long Life Friction Clutch**
Protects hoist from damage and prevents overwinding. ER model couples Weston-style load brake with friction clutch.
We have added several new features and upgrades to our NER/ER Series of electric chain hoists. These improvements to our high quality, full-featured hoist include the latest technologies making these models absolutely the best electric chain hoists in the market today.

Features and Benefits

UL® Listed**
Certified and listed to UL 1340 “Standard for Hoists.”

Easy Access Suspension
External pins allow for quick change from hook to lug for trolley mount configurations on most models.

Green Initiative
Built smarter without the use of harmful materials. Environmentally friendly. RoHS compliant.

Notched Hook and Latch System
Provides positive closing and improves resistance against lateral forces.

Limit Switches
Low-profile upper and lower limit switches are standard.

Extended Chain Life
Decreased chain wear as a result of a revolutionary heat treatment process, improved material and chain size.

High Air Flow
Cooler motor and brake attributed to an engineered motor fin, fan blade and fan cover design.

Unique Load Sheave
Increased number of pockets reduce chain vibration and increase chain life. 5 pockets standard; 6 pockets on smaller body hoists.

Friction Clutch and Load Brake
Friction clutch is standard on NER/ER models and friction clutch with mechanical load brake standard on ER models. Carbon friction material provides consistent performance over a wide temperature range.

Standard Count Hour Meter
Records and displays the number of lowering starts and hoist on time which is valuable for preventive maintenance. Integral to VFD on dual speed models.

Contactors
Mechanically interlocked, heavy-duty contactors on single speed models.

High Strength, Corrosion and Wear Resistant Load Chain
Grade 80, super strength, nickel-plated load chain, certified to DIN standards, uses unique technology to greatly increase resistance to fatigue and wear.

Dual Speed VFD
Under-the-cover VFD standard for dual speed hoists. Speed ratio is 6:1 with adjustability up to 12:1.

“The Guardian”: Smart Brake Technology
A current driven electromagnetic brake does not release unless the motor is energized. 10 year hoist brake warranty.

Pendant Controls
Ergonomic design for operator comfort. Red button emergency stop is standard on all 2-button dual speed pendants.

Standard Hoist Specifications

Capacity Range
NER/ER – 1/8 Ton – 5 Ton
(See page 30 for 8 – 20 Ton)

Standard Voltage
208-230 / 460-3-60
Optional voltages available
Dual speed models are not reconnectable

Control Voltage
110V (optional 24V)

Duty Cycle*
Single Speed – 60 Min.
Dual Speed – 30/10 Min. with VFD

Classification*
ASME H4
ISO M5
FEM 2M or 1Am

Conformance**
UL 1340

Ratings
Hoist – NEMA 4, IP55
Pendant – IP65

Upper/Lower Limit Switch
Overwinding / overlifting device
Standard on all models

Chain Falls***
Single chain fall through 3 Ton

Standard Lift
10’ (longer lifts available)

Standard Pendant Drop
4’ less than lift (longer drops available)

Standard Power Supply Length
15’ (longer lengths available)

Mounting
Hook, lug or trolley

Standard Pendants
Single speed: 2-button (momentary contacts)
Dual speed: 2-button (momentary contacts) with emergency On/Off (maintained contacts)

Chain Containers
Optional
Canvas, plastic or steel

Operating Conditions
Recommended for -4˚ to +104˚ F and humidity of 85% or less.

NER vs. ER Features
ER model has same high-quality features as NER plus the following:
• Second brake—Weston-style mechanical load brake

**Most models shipped with UL listing. Contact Customer Service for listed models.
***The 3 Ton (N)ER030L is the previous hoist model.
