PARTS ORDERING INFORMATION

These products are designed and constructed to provide long, trouble-free service. In time it may be necessary to order and install new parts to replace those that have been subjected to wear.

For your convenience and future reference, it is recommended that the following information be recorded.

Model Number_		
Serial Number_		
Date Purchase	<u> -</u>	

When ordering replacement parts, please specify the following:

- 1. Complete model number and serial number as it appears on the data (name) plate.
 Part number(s) and part description as shown in this manual.
 Quantity required.

The data (name) plate is located on the product.

NOTICE

- Continuing improvement and advancement of design may cause changes to this equipment which are not included in this manual. Manuals are periodically revised to incorporate changes. Always check the manual edition number on the front cover for the latest issue.
 Sections of this manual may not apply to your product.
 The use of other than genuine Ingersoll Rand replacement parts may result
- in safety hazards, decreased performance and increased maintenance, and will invalidate all warranties.

■ Return Goods Policy

Ingersoil Rand will not accept any returned goods for warranty or service unless prior arrangements have been made and written authorization has been provided from the location the goods were purchased.

Products that have been modified without **Ingersoll Rand** approval, mishandled or overloaded will not be repaired or replaced under warranty. A printed copy of the warranty that applies to this product is provided inside the back cover of the product information manual or in some cases the parts manual.

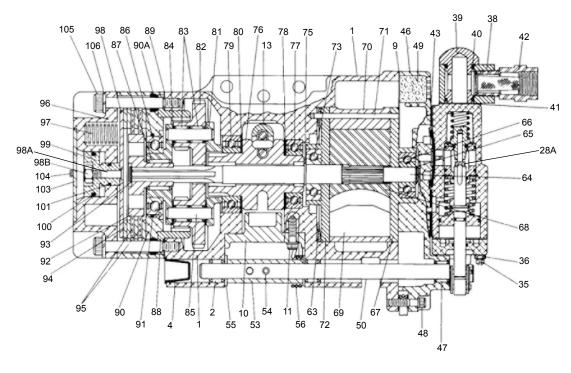

■ Disposal

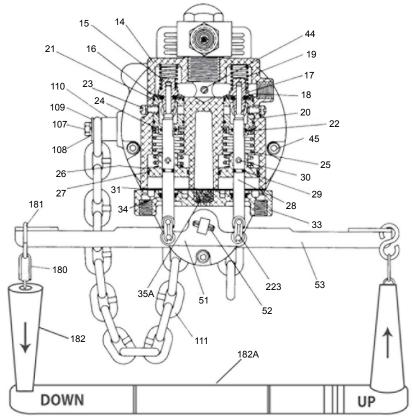

When the life of the product has expired, it is recommended that it be disassembled, degreased and parts separated as to materials so that they may be recycled.

Refer all communications to the nearest Ingersoll Rand Office or Distributor.

•	Recommended Spare
*	Not Shown

*** Also used on the bottom block assembly on hoist versions prior to 02/2010.

*** Includes Items 345-349

Note: for ML250K and ML500K: Stop Ring (362) and Spring (361) are required to prevent damage to the Hoist.

For models ML250KS, ML250KR and ML500KS: Stop Ring (362) and Spring (361), are not necessary for these units due to reduced operating speeds. This will decrease the minimum hook to beam distance in full UP position by approximately 4 in. (100 mm).

 Bolt (130) to be tightened at 22.6 26.0 Nm (16.7-19.2 ft lb)

TROLLEY ASSEMBLY PARTS LIST

Note: The components listed here are the major assemblies required for MLK trolleys. For individual Trolley components, and for trolley maintenance requirements, see the form MHD56083, "Parts, Operation, and Maintenance Manual for Plain, Hand Chain, and Air-Powered Trolley Models TIR6600, TIR132, and RT010".

INSTALLATION INSTRUCTIONS FOR FABRIC CONTAINER KITS

Refer to Dwg. MHP3236 and Dwg. MHP3237 on page 17.

⚠ WARNING

Disconnect the hoist from the air supply before installing a chain container kit.

 Insert a container bolt (305) through the boss on the hoist housing and into the brackets (301 and 302). Retain the container with the bracket bolt nuts (304).

NOTICE

- If the container is to be allowed to swing outward, tighten the nuts to within one turn of being fully tight. This will allow the container to swing away from a load.
- Apply the balance chain (307) to the container and hoist using the S-Hooks (308).
 Adjust the length of the chain to prevent the load chain from rubbing on the container.

REPAIR AND CONVERSION KITS

Recommended Spare Part Kit: MHLK-HSK includes all recommended spare parts for MLK hoists.

Includes chain container, brackets and all hardware necessary for installation on a hoist.

No. ML50K-K749-17 (03551066) for use on a single line hoist with up to a 17 ft (5 m) lift and on a double line hoist with up to a 9 ft (2.7 m) lift.

No. ML50K-K749-45 (03551074) for use on a single line hoist with up to a 45 ft (14 m) lift and on a double line hoist with up to a 23 ft (7 m) lift.

Metal Chain Containers:

No. ML10-K749 for use on a single line hoist with up to 13 ft (4 m) lift and on a double line hoist with up to 6.5 ft (2 m) lift.

No. ML20-K749A for use on a single line hoist with up to 26 ft (8 m) lift and on a double line hoist with up to 13 ft (4 m) lift.

No. ML20-K749-20 for use on a single line hoist with up to 40 ft (12 m) lift and on a double line hoist with up to 20 ft (6 m) lift.

No. MLK-K750-80 for use on a single line hoist with up to 80 ft (24 m) lift and on a double line hoist with up to 40 ft (12 m) lift.

Pendant Conversion Kit:

Includes all components including hose and strain relief cable necessary to convert a pull chain throttle hoist to pendant control operation. Length of pendant hose must be specified when ordering. No. MLK-AL269C-XX for use on all MLK hoists. Pendant length is normally 5 ft (1.5 m) shorter than lift.

Pull Chain Conversion Kit:

Includes all components necessary, except the pull chains, to convert a pendant throttle hoist to pull chain control operation.

No. MLK-K415A for use on all MLK hoists. Order pull chains separately.

No. 37657-XXX-X (04081154) pull chain for use on standard MLK hoists. Specify total length of two required pull chains.

No. D02-1413 (03170685) pull chain for use on spark resistant MLK hoists. Specify total length of two required pull chains.

Valve Chest Conversion Kit:Includes all components necessary to convert Valve Chests used on Hoists with second letter of the Serial Number A through G or with second and third letters of the Serial Number HA, HB or HC to the same style Valve Chest used on Hoists with second letter of the Serial Number other than A through G or with second and third letters of the Serial Number other than HA, HB or HC. No. MLK-K545B (03835519

Manual Brake Release Kit:

Includes all the components for a manual release brake and/or 200% brake capability. No. MLK-K390 (03721685) for use on all MLK Hoists.

Pendant No. MLK-K122B (04306551) Strain-relief chain CA110-B240 (03457769) Specify feet of lift.

Motor hose (2 required) 50923 (03990215) Specify feet of lift. Hoist hose (3 required) BH6C (04306510) Specify feet of lift.

(For lift length greater than 20 ft, 2 pieces each of hose quick exhausts 20417(71069579) and MR-939 (03195484) are required). (Double quantity for lift length greater than 50 ft)

Three-Motor Pendant:
For All MLK Hoists:
Pendant No. MLK-K1312B (04306544) Strain-relief chain CA110-B240 (03457769) Specify feet of lift.

Motor hose (2 required) 50923 (03990215) Specify feet of lift. Hoist hose (3 required) BH6C (04306510) Specify feet of lift.

(For lift length greater than 20 ft, 2 pieces each of hose quick exhausts 20417(71069579) and MR-939 (03195484) are required). (Double quantity for lift length greater than 50 ft)

Quick-Exhaust Valves:

Must be used on all Hoists with pendant control when hoses exceed 50 ft. (15 m) in length and includes all fittings and clamps. No. MLK-A939 (03619681) for all MLK Hoists.

Includes gaskets, O-rings and seals for ML250K, ML250KR, ML500K, ML500K, and ML1000K hoists. No. MLK-K445 (03713740)

Bullard-Burnham Gate Hooks:No. CE110-KBB377 (03504537) for ML250K and ML500K.
No. CE120-KBB377 (03504545) for ML1000K.

Vane and Spring Retrofit Kit:
This kit will improve starting and low speed control on hoists not currently so equipped with, No. MLK-KVSR1 (03835451) Retrofit Kit includes illustrated parts 17, 31, 65, 93, and MLK-42 (7), MLK-43 (7), and HLK-640.

Vane/spring Kit:

No. MLK-K4243-7 Kit includes illustrated parts 69 (7) and 69A (7).

Vane Spring Packet:

No. MLK-43-7 Kit includes illustrated part 69A (7).

Down Valve Assembly: No. MLK-K1102D Assembly includes illustrated part 17.

No. MLK-VCK1 Kit includes illustrated parts 18, 19 (2), 21 (4), 22 (2), 24 (2), 25 (2), 27 (2), 29 (2), 30 (2), 31 (2), 33 (2), 40 (2), 41, 42, 43 and 223.

Brake Kit: No. MLK-ABK1 Kit includes illustrated parts 95 (2), 97 (3), 100, and 101.

No. MLK-CWK1 Kit includes illustrated parts 76, 77, 78, 79, 80, and non-illustrated part ML-741C.
